Circular steps in tower

The historic Toledo Harbor Lighthouse is unique with buff brick and the roof like the upside-down hull of a ship. The Toledo Lighthouse is 4000 square feet with three floors in the main building, a cellar, a two-story tower and a top lookout area located five miles off shore on a crib in western Lake Erie. The Toledo shipping channel is located near the lighthouse. When the restoration is complete, four people will stay at the lighthouse for a number of days to maintain the lighthouse and to greet boaters and tourists for a lighthouse tour.

There are three phases for the restoration: Phase One is structural and some windows, Phase Two is infrastructure, Phase Three is finishing. The Phase One project is underway and has been reviewed by government departments for the \$500,000 grant to begin the project. There is a \$136,000 match required that a loan is being secured for. The Toledo Lighthouse Society would like to reduce the loan. The project is very close to going to bid.

The Phase One project includes: Structural repairs; Tucking and replacing some brick; New Exterior Steel Door, and Install First Floor Windows and Shutters which has already been purchased for \$90,000. If bids are under estimate additional windows will be installed. If the bids are at estimates, an additional grant will be sought for the remaining windows. This is a capital campaign to have naming rights to the risers on the steps. If there is no riser, the step number and name will be placed near the stairway where the steps are located. 'My Toledo Lighthouse Step' costs for steps between the first and second floor is \$700 each. The cost for the second to third floor is \$600 each. Circular tower steps (two floors) are \$500 each, cellar and annex steps are \$350 each. There is a total of nearly 100 steps. Help the lighthouse and be remembered - name a step for yourself, grandchildren and other friends and family. Your specific step will be determined at a drawing when the Phase One Restoration project is complete. Thanks for your interest in the Toledo Lighthouse.
